## **MacKenzie Commercial Real Estate Opens Howard County Office at Maple Lawn**

In June, MacKenzie Commercial Real Estate Services, LLC opened a new office, the company's fifth in Maryland, at Maple Lawn, a 2 million square foot mixed-use development in Howard County. The 2,092 square foot location is positioned strategically in the BWI Corridor and offers easy access to numerous amenities, Columbia, Baltimore City, Fort Meade, the new FDA facility in White Oak, and Prince George's and Montgomery Counties.

Seven MacKenzie associates will work at the Maple Lawn branch, which also provides close proximity to its on-site medical and retail listings. MacKenzie's Medical Office Team is actively marketing Maple Lawn's class A medical office condos available for sale and lease, and in April MacKenzie Retail was selected as the exclusive listing broker for Maple Lawn's retail space.

The award-winning community, located three miles from I-95, has become a sought after location for proactive businesses looking for an employee-friendly business environment. Inspired by the small towns of the 19th century, the 605 acre project comprises a unique blend of professional and medical services, a wide variety of housing options, high-end retail and dining amenities, ample green space, and pedestrian-friendly walkways. When complete, the state-of-the-art planned community will include six distinct neighborhoods, 1,340 residences, 1.6 million square feet of class A office and medical space, and 182,000 square feet of retail space.

"Maple Lawn's excellent location, impeccable design, and diverse business community make it an ideal location for progressive businesses," said Gary T. Gill, President and CEO of MacKenzie Commercial Real Estate Services. "In addition, having an office on-site allows us to enhance our marketing efforts for Maple Lawn's medical and retail space, and provide our clients and prospects with a heightened level of convenience and service."
